ACADEMIC BACKGROUND

Master of Computer Applications (MCA) — **2025 – 2027**
GL Bajaj Institute of Technology & Management, Greater Noida — *CGPA: 7.6*
Bachelor of Computer Applications (BCA) — **2022 – 2025**
School of Management Sciences, Varanasi — *CGPA: 7.18*
Intermediate (Science) — UP Board — **73%**
High School — UP Board — **79.5%**

TECHNICAL COMPETENCIES

Programming Languages: C, C++, JavaScript
Frontend: HTML, CSS, Tailwind CSS, React.js
Backend: Node.js, Express.js
Database: MongoDB
Core Subjects: Object-Oriented Programming, DBMS, Operating Systems
Tools: Git, GitHub, VS Code, Postman

PERSONAL COMPETENCIES

- Problem Solving
- Logical Thinking
- Team Collaboration
- Quick Learner
- Communication Skills

PROFESSIONAL TRAINING / INTERNSHIP

Full Stack Web Development Intern — **Feb 2024 – Aug 2024**
Aradhya Technologies and Skill Development Pvt. Ltd.

- Developed responsive web applications using React.js, integrating reusable, component-based UI structures.
- Built and deployed REST APIs using Node.js and Express.js to support core application functionality.
- Integrated MongoDB with backend services and implemented complete CRUD operations for data management.
- Engineered dynamic UI components, improving application responsiveness and user experience.
- Collaborated using Git and GitHub for version control, following component-based development practices.

ACADEMIC PROJECTS

AutoCRM – Lead Management CRM
React.js, Node.js, Express.js, MongoDB, Tailwind CSS
Objective: Built a lead management system enabling businesses to track, organize, and manage customer leads through a centralized dashboard with secure, role-based access.

- Implemented JWT-based authentication for secure user login and protected route access.
- Designed a lead management module supporting structured storage and organization of customer data.
- Developed an interactive dashboard for real-time tracking and visualization of leads.
- Built a reminder module to help users follow up on pending leads in a timely manner.
- Engineered complete CRUD operations through RESTful APIs connecting frontend and backend.
- Designed a responsive UI using React.js and Tailwind CSS for seamless use across devices.

BookFlow AI – Appointment Management SaaS
React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Socket.IO, AI API
Objective: Built a multi-tenant appointment management platform enabling businesses to manage customers, staff, services, bookings, notifications, and AI-powered business assistance.

- Implemented JWT-based authentication, role-based access control, and organization-level data isolation.
- Developed appointment scheduling with staff availability, working hours, leave management, and appointment conflict prevention.
- Built customer, staff, service, notification, dashboard, and analytics modules using RESTful APIs.
- Integrated Socket.IO for real-time appointment and notification updates across the application.
- Implemented AI-powered appointment assistance, customer summaries, and dashboard insights through a backend AI API.
- Added automated email notifications and scheduled appointment reminders using SMTP and cron jobs.

SEMINARS / CERTIFICATIONS

- Full Stack Web Development Using MERN Stack — Aradhya Technologies and Skill Development Pvt. Ltd.
- Advanced Web Technologies Workshop — Minicimex Technologies
- WebDX Brainstorming Workshop — School of Management Sciences, Varanasi

ACHIEVEMENTS & CO-CURRICULAR ACTIVITIES

- Completed a 6-month Full Stack Web Development Internship with hands-on industry project exposure.
- Consistently practicing Data Structures and Algorithms to strengthen problem-solving proficiency.
- Participated in the Advanced Web Technologies Workshop, engaging with emerging frontend and backend tools.
- Attended the WebDX Brainstorming Session, contributing to collaborative ideation on modern web solutions.
